PEO STRI NEWS
PEO STRI Advance Planning Briefing to Industry (APBI)
The Program Executive Office for Simulation, Training & Instrumentation (PEO STRI) will conduct an Advance Planning Briefing to Industry (APBI) on June 9-10, 2004 at the Radisson University Hotel, Orlando, Florida.
PEO STRI will provide briefings and discussions to help industry better understand its long range development and acquisition vision, goals, and objectives. The program will cut across the live, virtual, constructive, and test instrumentation domains and is designed to inform the defense industry about future Army test, training, and simulation requirements and acquisition plans.
The DETEC program's objective for the PEO STRI APBI is to inform prospective bidders of the need and expectations for an LSI for project execution. This will entail a cursory review of the current capabilities development requirements and will discuss that a RFP is being prepared for release in 4QFY04 (in response to an RFI which closed on 7 May 2004) soliciting an LSI. The RFP will be issued with a SOO (yet to be completed), and the Capabilities Requirements document which will require a solution methodology to be developed by the bidders.
Click here for more information.
PEO STRI NEWS
ARMY PROGRAM RECOGNIZED AS ONE OF DEFENSE DEPARTMENT'S BEST
The Army's Program Executive Office for Simulation, Training and Instrumentation (PEO STRI), headquartered in Orlando, Florida, cited strong teaming arrangements and sound software development approach as key contributors to the One Semi-automated Forces (OneSAF) Objective Systems success in the recent CrossTalk awards presentation.
On April 23, 2004, Lt. Col. John R. (Buck) Surdu, Army Product Manager for OneSAF; Ms. Beverly Kitaoka, senior vice president and general manager of SAIC's Technology and Simulation Solutions Business Unit; and Tom Radgowski, SAIC program manager, accepted the award at the annual awards ceremony in Salt Lake City, Utah, where sponsors recognized the Defense

AKO ARMY KNOWLEDGE ONLINE

Every Soldier who deploys uses some type of simulation to train critical Warfighting skills. Simulations help our Soldiers hone their skills, rehearse their missions and return to their families safely when their missions are complete. PEO STRI responds quickly to critical, emerging requirements with innovative acquisition and technology solutions and puts the power of simulation into the hands of America's Warfighters!

STOC II Recompete

- PEOSTRI will accelerate the recompete of the STOC Multiple Award Contract in order to preclude potential ceiling problems
- Anticipated award will be in FY07

STOC II Recompete

- PEOSTRI will post draft acquisition approach data and general announcements. This data will be updated on a regular basis
- PEOSTRI will conduct contractor One-on-One meetings starting 2nd Qtr FY06

STOC Recompete

- Industry brief for acquisition will be conducted at FY06 APBI
- All industry comments and recommendations will be considered in the final acquisition strategy.

STOC I Positives to be retained in STOC II

- Dramatically reduced time to award
- Reduced Litigation
- Improved Communication/Partnering with Industry
- Streamlined processes that reduce resource requirements
- Increased user involvement in source selections

STOC II Acquisition Challenges

- Increased responsiveness to market changes
  - Ability to add additional contractors
- Improved Past Performance database
- Reduced CBU stove piping
- Improved early communication of acquisitions to industry
- Continued Government/Industry effort to streamline/improve processes

Potential Areas of Evaluation

- Evaluation Factors are not yet determined
- Potential Factors include
  - Past Performance
  - Price
  - Technical Expertise and Experience
  - Technical/Management Processes
  - Overall IQC Management Approach
